

Mid-IR Lasers Market Review and Forecast 2010

Report OM-56

September 2010

Strategies Unlimited
201 San Antonio Circle, Suite 225
Mountain View, California 94040
Phone: (650) 941-3438 Fax: (650) 941-5120

TABLE OF CONTENTS

- 1. EXECUTIVE SUMMARY**
- 2. MID-IR TECHNOLOGY TRENDS**
 - 2.1 What is Mid-Infrared?
 - 2.2 Why or Why Not Mid-IR?
 - 2.3 Mid-IR in the Atmosphere
 - 2.4 A Mid-IR Timeline
 - 2.5 Mid-IR Laser Types
 - 2.6 Semiconductor Lasers
 - 2.7 OPOs and OPAs
 - 2.8 Mid-Infrared Detectors and Imagers
- 3. MID-IR APPLICATIONS: MATERIALS PROCESSING**
- 4. MID-IR APPLICATIONS: MEDICAL**
 - 4.1 Laser Processing of Human Tissue
 - 4.2 Mid-IR Medical Laser Treatments
 - 4.3 Mid-IR Medical Laser Forecast
 - 4.4 Medical Laser Manufacturers
- 5. MID-IR APPLICATIONS: SENSING**
 - 5.1 The Business of Sensors
 - 5.2 Types of Optical Spectroscopy
 - 5.3 Methods of Infrared Spectroscopy
 - 5.4 Sources for Mid-IR Spectroscopy
 - 5.5 Key Mid-IR Absorption Wavelengths
 - 5.6 A Mid-IR Alternative: Raman Spectroscopy
 - 5.7 Types of LIDAR
 - 5.8 The MIRTHERoadmap
 - 5.9 Mid-IR Spectroscopy Segments
 - 5.10 Mid-IR Laser Spectroscopy Forecast
 - 5.11 A Model for Scaling QC and Diode Lasers
- 6. MID-IR APPLICATIONS: IRCMs**
- 7. MID-IR APPLICATIONS: ILLUMINATORS**
- 8. MID-IR APPLICATIONS: R&D**
- 9. KEY MID-IR COMPONENT SUPPLIERS**
 - 9.1 Mid-IR System Components
 - 9.2 Key Recent Events of Mid-IR Laser Suppliers
 - 9.3 Key Suppliers of Mid-IR Semiconductor Lasers
 - 9.4 Suppliers of Mid-IR SSL and Fiber Lasers
 - 9.5 Suppliers of Mid-IR OPO and OPA Products
 - 9.6 Suppliers of Mid-IR Gas Lasers
 - 9.7 Suppliers of Mid-IR Optics
 - 9.8 Suppliers of Mid-IR Transmission Media
 - 9.9 Suppliers of Mid-IR Detectors and Imagers

LIST OF FIGURES

- 1.1 Mid-IR Laser Revenues by Application, 2010
- 1.2 Mid-IR Laser Revenues by Application, 2009–2014
- 1.3 Mid-IR Laser Revenues by Type, 2009–2014
- 1.4 Price vs. Volume Learning Curve for Mid-IR Semiconductor Lasers
- 1.5 Mid-IR Laser Manufacturers by Region of Headquarters, 2010

- 2.1 The Electromagnetic Spectrum
- 2.2 Atmospheric Transmission Spectra
- 2.3 Emission Wavelengths for III-V Material Systems: GaAs, InP, and GaSb
- 2.4 Coherent OPSL Design
- 2.5 Mid-IR OPSL Performance – Power vs. Wavelength
- 2.6 Maximum Operating Temperature vs. Wavelength – Quantum Cascade Lasers
- 2.7 QC Laser High-Heat-Load Package
- 2.8 Pulse Energy vs. Wavelength – Newport TOPAS OPA
- 2.9 Average CW Power vs. Wavelength – Aculight Argos OPO Modules
- 2.10 Spectral Response of Key Detector Technologies
- 2.11 Judson’s Focal Plane Array Products by Wavelength and Cooling

- 3.1 Laser Absorption for Plastic Materials
- 3.2 Progress in Output Power in Yb- and Tm-Doped Fiber Lasers, 2001–2009
- 3.3 Forecast of Materials Processing Laser Revenues by Subsegment, 2008–2014
- 3.4 Forecast of Mid-IR Materials Processing Laser Revenues by Type, Excluding Kilowatt CO₂ Lasers, 2009–2014

- 4.1 Interactions of Light with Tissue – Irradiance vs. Pulse Duration
- 4.2 Absorption of Light in Tissue – 200 nm to 12 Microns
- 4.3 Forecast for Medical Laser Revenues by Procedure, 2008–2014
- 4.4 Forecast for Mid-IR Medical Laser Revenues, 2008–2014

- 5.1 Example of a Sensor Product Feature Map
- 5.2 Map of Molecular Detection Methods Including CDRS
- 5.3 Families of Mid-IR Vibrational Resonances by Wavenumber
- 5.4 Mid-IR Absorption of CO and CO₂ by Wavelength and Wavenumber
- 5.5 Absorption Spectra of Various Gases by Wavelength
- 5.6 Examples of Useful Mid-IR Molecular Resonances by Wavelength
- 5.7 Biological Molecule Absorption Spectra
- 5.8 Forecast of Mid-IR Lasers for Sensing, 2009–2014
- 5.9 Cost and Price vs. Volume Learning Curve for Mid-IR Semiconductor Lasers

- 6.1 Atmospheric Transmission Windows
- 6.2 Northrop’s Viper Laser Subsystem for NEMESIS DIRCM Systems
- 6.3 Fibertek’s Mid-IR Laser for Northrop’s Viper Subsystem

- 7.1 Insight Technology Rangefinder with Integrated Multifunction Lasers
- 7.2 Daylight Solutions Mid-IR Illuminator/Pointer/Beacon
- 7.3 Ranges of Infrared Illuminators

- 8.1 Newport TOPAS Ultrafast OPA
- 8.2 Forecast for Lasers for R&D, 2009–2014

- 9.1 Components of a Mid-IR System
- 9.2 Transmission of Common Optical Materials
- 9.3 Loss Spectra of Mid-IR Transmission Media
- 9.4 Loss Spectra of Three Kinds of Fibers

LIST OF TABLES

- 1.1 Reasons for Using the Mid-Infrared Spectrum
- 1.2 Key Mid-IR Laser Segments
- 1.3 Three Phases in Mid-IR Laser Sales
- 1.4 Forecast of Mid-IR Laser Revenues by Application, 2009–2014
- 1.5 Summary by Mid-IR Market Segment
- 1.6 Forecast of Mid-IR Laser Revenues by Type, 2009–2014
- 1.7 Summary by Mid-IR Market Segment
- 1.8 Mid-IR Laser Types and Applications
- 1.9 Number of Mid-IR Laser Manufacturers by Region of Headquarters
- 1.10 Trends in Vertical Integration by Segment

- 2.1 Infrared Spectral Ranges
- 2.2 Conversion of Wavelength to Frequency and Wavenumber
- 2.3 Reasons for Using the Mid-Infrared Spectrum
- 2.4 Atmospheric Transmission Windows
- 2.5 A Timeline of Mid-Infrared Technology Milestones
- 2.6 Key Laser Emissions in the Mid-IR Range
- 2.7 Comparison of QCL, Interband Cascade, and Conventional Interband Lasers
- 2.8 Families of Near-IR and Mid-IR Diode Lasers
- 2.9 Families of Quantum Cascade Lasers
- 2.10 Selected Results for Efficiency and Output Power – Quantum Cascade Lasers
- 2.11 Notable Centers for Mid-IR Laser Research
- 2.12 Regimes of Operation – OPOs and OPAs
- 2.13 Two Types of Infrared Detectors
- 2.14 Types of Infrared Detectors
- 2.15 Imaging Wavelengths for Infrared Cameras

- 3.1 Laser Requirements to Process Different Materials
- 3.2 Types of Commercial CO₂ Lasers
- 3.3 Comparison of Three Key Fiber Laser Types
- 3.4 Forecast of Materials Processing Laser Revenues by Subsegment, 2008–2014
- 3.5 Summary by Market Segment
- 3.6 Forecast of Mid-IR Materials Processing Laser Sales by Type, 2009–2014

- 4.1 General Laser Requirements for Different Medical Treatments
- 4.2 Laser Wavelengths Used for Different Medical Treatments
- 4.3 Types of Long-Wavelength Laser Skin Treatments
- 4.4 Vendors of Dermatology Systems Using Mid-IR Lasers

- 4.5 Vendors of Dentistry Systems Using Mid-IR Lasers
- 4.6 Vendors of Surgical Systems Using Mid-IR Lasers
- 4.7 Forecast for Medical Laser Revenues by Procedure, 2008–2014
- 4.8 Forecast for Mid-IR Medical Laser Sales, 2008–2014
- 4.9 Maximum Selling Prices for Medical Laser-Based Tools
- 4.10 Status Regarding Vendors of Over-the-Counter Cosmetic Laser Products
- 4.11 Key Merchant Suppliers of Medical Lasers

- 5.1 Features of Key Types of Optical Spectroscopy
- 5.2 Key Features of Spectral Ranges for Spectroscopy
- 5.3 Key Features of Different Methods of Infrared Spectroscopy
- 5.4 Summary of Mid-IR Spectroscopic Sources
- 5.5 Mid-IR vs. Raman Spectroscopy
- 5.6 Preferred Wavelength Ranges for LIDAR Applications
- 5.7 Summary of Mid-IR Spectroscopic Segments
- 5.8 Potential Compounds for Breathalyzer Instruments
- 5.9 Volume/Price Segments for Mid-IR Spectroscopy Systems
- 5.10 Laser Price Segments for Mid-IR Spectroscopy Systems
- 5.11 Forecast of Mid-IR Lasers for Sensing, 2009–2014
- 5.12 Outlook for Mid-IR Lasers by Type
- 5.13 Scenario for Price-Volume Combinations for Mid-IR Spectroscopic Tools

- 6.1 Infrared Transmission Windows
- 6.2 Laser Requirements for IRCM Systems
- 6.3 Forecast for Laser Sales for IRCM Systems, 2009–2014

- 7.1 The Evolution of Infrared Imaging and Illumination
- 7.2 Near-Term Volumes and Prices for Infrared Illuminators and Related Applications
- 7.3 Forecast for Laser Sales for Mid-IR Illuminators, 2009–2014

- 8.1 Examples of Applications of Mid-IR Lasers for R&D
- 8.2 Forecast for Mid-IR Laser Sales by Type – R&D, 2009–2014

LIST OF TABLES Continued

- | | | | |
|-----|---|------|--|
| 9.1 | Notable Recent Events in Mid-IR Laser Suppliers | 9.6 | Some Vertically Integrated Mid-IR Medical Laser System Vendors |
| 9.2 | Suppliers of Mid-IR Semiconductor Lasers | 9.7 | Suppliers of Mid-Infrared OPO and OPA Products |
| 9.3 | Brief Profiles of Key Vendors of Mid-Infrared Products – Semiconductor Lasers | 9.8 | Suppliers of Mid-Infrared Gas Laser Products |
| 9.4 | Merchant Suppliers of Mid-Infrared Solid-State and Fiber Lasers | 9.9 | Suppliers of Mid-Infrared Passive Optical Components |
| 9.5 | Brief Profiles of Key Vendors of Mid-Infrared Products | 9.10 | Suppliers of Mid-Infrared Transmission Media |
| | | 9.11 | Suppliers of Infrared Detectors by Technology |
