CHINA UPSTREAM LED MARKET – 2011

Table of Contents

Chapter I Overall analysis of China's LED upstream industry

Section 1 2010 Crazy investment in Chinese LED upstream industry

From 2009–2010, capital investment and the number of imported MOCVDs exceeded more than 10 times the previous top investments in the LED upstream industry. Take a wide view of the investment of China's LED upstream industry, it mainly reflects in the following aspects

Section 2 Competition analysis of Chinese LED upstream industry

Section 3 Main feature of Chinese LED upstream industry

Chapter II Development analysis of Chinese LED chip enterprises

Section 1 The number of Chinese LED chip enterprises increases quickly

Section 2 The entering and mass production time analysis of Chinese LED chip enterprises annually

Entering time distribution-total 80 LED chip enterprises

Time analysis of mass production

Section 3 Regional distribution analysis of Chinese LED chip enterprise

Regional distribution change analysis of Chinese LED chip enterprise

Regional distribution of LED chip enterprises-total 80

Regional distribution of LED chip enterprises- already mass production totals 41

Regional distribution of LED chip enterprises-39 without mass production

Provincial distribution of LED chip enterprises-total 80

Provincial distribution of LED chip enterprises-39 without mass production

Section 4 Financing type analysis of Chinese LED chip enterprise

Section 5 Investment analysis of Taiwan enterprises in Chinese LED chip area

Section 6 Investment analysis of other foreign-funded enterprises in Chinese LED chip industry

In 2009, most Taiwanese and other foreign-funded enterprises came into China; at present, most enterprises are in the construction period, and plan to invest or just start production. Future investment of foreign-funded enterprises will effectively enhance the whole quality of Chinese LED chips. Large-scale construction of businesses, especially with a Taiwanese background, will bring in excellent technology and talent, which will shorten the time frame for China to become the main global producer of LED chips.

Chapter III Market analysis of LED chip in China

- Section 1 Output value analysis of LED chip in China
- Section 2 Output value analysis of Chinese LED chip enterprises
- Section 3 Output analysis of Chinese LED chip
- Section 4 Type analysis of Chinese LED chip enterprisechips

Chapter IV Market analysis of Chinese LED Epitaxial wafers

- Section 1 Market analysis of Chinese LED Epitaxial wafers in 2010

Chapter V Circumstances analysis of MOCVD used in Chinese LED industry

- Section 1 Number analysis of the MOCVD used in Chinese LED industry
- Section 2 Circumstance analysis of MOCVD in each LED chip enterprise
- Section 3 Supply and demand analysis of MOCVD in the market
- Section 4 The whole market capacity forecast of global MOCVD

Chapter VI Market analysis of Chinese LED Sapphire substrate

- Section 1 Global shortage of Sapphire substrate in 2010
- Section 2 Main Manufacturer analysis of the global Sapphire substrate
- Section 3 Market demand analysis of Chinese Sapphire substrate
- Section 4 Introduction of silicon carbide substrate market circumstances

Chapter VII Market analysis of Chinese MO source

- Section 1 Market demand circumstances and forecast of Chinese MO source
- Section 2 Industrial chain analysis of MO source Photoelectric Material
- Section 3 Market feature of MO source Photoelectric Material
- Section 4 Manufacturer analysis of the main MO sources in the globe

Chapter VIII China's Support Policies for the LED Industry

- Section 1 National LED industrial supporting policy
- Section 2 Relevant Support Policies of Local Cities in China

Chapter IX Key LED Chip Enterprises and Latest LED Projects in China

Section 1 Company profile

Section 2 Newly Established LED Chip-Related Projects from 2009–2010 in China...

Chapter X Forecast of the LED upstream industry in China
